Let's Start!

In the beginning, the earth was bare.

Learning Outcome

Describe hypothetical situations in written and spoken interactions according to work and social contexts.

Ask your partner:

- What legends do you know from the indigenous people in your country?
- Do they have a creation or flood story? How does it go?

Can Do Statements

- I can talk about myths and legends.
- I can talk about things that happened.
- I can talk about reactions and behaviors in different situations.

Let's Explore!

They became **pulsing*** stars in the heavens!

* The light from stars is refracted when it enters earth's atmosphere, so they seem to twinkle or "pulse".

Instructions: Read the text aloud.

In the beginning there was nothing on the earth. There were many powerful spirits in the air. One spirit was more powerful than all the rest. The other spirits were feeling jealous, so they rebelled against him.

He felt great anger, so he crushed them. He refashioned them into rock and stone and fire. They became mountains and volcanoes.

He was kind to those who did not rebel. He changed them into fiery objects, and he cast them into the heavens to become pulsing stars.

While the spirit was talking to his son, he decided to honor him. He turned him into a man and sent him to the earth. Later, when he realized his son was lonely, the powerful spirit took a star and carefully sculpted it into a woman.

Then, while he was watching the woman walk the barren earth, he decided to grow grass and flowers to protect her feet.

Whenever the woman touched a flower, it turned into a bird or a butterfly. Whenever the woman walked through a field, a huge jungle appeared after her.

The man and the woman were walking one day when they found each other. They saw that the earth was beautiful. In the daylight hours, the powerful spirit was always watching them through a round window high in the sky.

At night, the man's mother was watching over them through the same window. This is how the mountains, volcanoes, man, woman, the sun, and the moon came to be.

Let's Practice!

Creation myths often explain how things came to be in the world.

Learning Points

The Simple Past Tense

You use the Simple Past tense to talk about many kinds of past events: short, quickly finished actions, longer situations and repeated events.

Usually, when you use the Simple Past tense, the time of the finished action is clear from the context or explicitly mentioned in the sentence.

For example:

*In the 1980s, scientists **recognized** that human actions had a negative effect on the global ozone layer.*

Here, it is clear when the action of "recognizing" happened (in the 1980s) and that it finished in that time period.

Here is another example:

*However, in 1985, they **discovered** a large hole in the ozone that is growing above Antarctica.*

You also use the Simple Past tense with the Past Continuous tense to talk about the action that interrupted another action in progress a particular time in the past.

For example:

*While the spirit was talking to his son, he **decided** to honor him.*

Here, the action of "deciding" interrupts the "talking", so you use the Simple Past tense.

Remember that there are both regular and irregular verbs. Look at the chart for examples of the Simple Past tense verbs.

Regular Verbs:

Present	Past
decide	decided
realize	realized

Irregular Verbs:

Present	Past
are	were
take	took
